Summary of Research Student Policies

Below is a summary of the University's policies that apply solely to students studying for the following awards:

- Doctor of Philosophy PhD
- Doctor of Medicine MD (Res) or MCh (Res)
- Master of Philosophy MPhil
- MA (by Research)
- MSc (by Research)
- LLM (by Research)
- PhD (by Published Work)

This summary is to be read in conjunction with the "Summary of Student Policies" which apply to all students at the University unless otherwise stated in that document.

Academic Regulations for	These policies should be read together. They contain a wide
Postgraduate Research	range of information about academic matters. They set out
Degrees	the University's expectations as regards student attendance,
	academic due diligence, and academic progress. Failure to
	meet these expectations may mean that you are not
	permitted to progress with your research degree. The policies
	also set out the University's rules regarding academic
	misconduct, such as plagiarism. Breach of these rules may
	result in a disciplinary process and the imposition of the
	academic penalties and/or expulsion.
Accompanying Information	These policies applies to research degree applicants. There
and Conditions of Offer for	is one Offer Pack for Home/EU applicants and a second Offer
Research Students	Pack for International applicants.
(Home/EU) and	
(International)	
Code of Practice relating to	This policy is a statement of good academic practice and
the Supervision	incorporates the procedures relating to every stage of
Examination and	research degree programmes.
Administration of Research	
Students	

Ethical Principles for Teaching, Research, Consultancy, KnowledgeThis policy contains the key principles which are intended to protect human, animal and other living subjects as well as the environment in all activities carried out in the University. The policy sets out the ethical principles for work with human participants, animals, micro-organisms, genetic modification, chemicals, radiation, the environment, art and military weapons and contains the key considerations that must be taken into account when undertaking research in respect in any of those areas, including the process for obtaining consent.e-Ethics Pack for ResearchThis policy sets out the process research students must follow in order to obtain ethical clearance in respect of their research projects. Research students should be aware that all research degree student projects, irrespective of the nature or activity involved, will need to be reviewed by their relevant ethics committee.The Ethics Checklist must be completed in order to ascertain whether a project requires an application for ethics approval, and to which committee it should be referred to. No field work, experimentation or work with participants can start until approval is granted. The questions should be completed by the Principal Investigator or supervisor/Director of Studies and never the student.Guide to PhD (by Published Work)This policy sets out the expectations for students studying for a PhD (by Published Work)		
Consultancy, Knowledge Transfer and Related Activitiesenvironment in all activities carried out in the University. Research Student	Conflicts of Interest Guide:
Assessment Policies and	This policy sets out the rules that research students and staff
Procedures Handbook,	must comply with regarding actual, potential, or perceived
containing:	conflicts of interest.
	Guide to Transferring from MPhil to PhD:
	This policy sets out the expectations for students transferring
	from MPhil to PhD.
	Annual Assessment of Progression forms:
	This policy shows the forms completed by research students,
	supervisory teams, and research degree tutors (RDTs) for the
	Annual Assessment of Progression exercise
	CLoK form and guide:
	This policy shows how research students deposit their thesis
	(e-thesis) with Central Lancashire Online Knowledge (CLoK),
	the Institutional Repository for UCLan.
	Student Declaration:
	The final thesis and is a statement regarding whether any of
	the material has been submitted for another award or if the
	student has had concurrent registration for two or more
	academic awards.

Research Student	The Research Student Handbook contains the core
Handbook	information in respect of what a student can expect from a
	research degree programme at the University. The
	Handbook is designed to provide an overview of the
	University's policies and procedures and it is not intended to
	be a substitute for students being aware of all of the policies
	and procedures (as contained in this summary document)
	which apply to them during the course of their studies with the
	University. The Handbook contains information relating to:
	Key contacts
	The stages of a research degree
	 Progression, monitoring, examining and awarding
	 Changing or withdrawing from study
	Health and Safety
	Ethical considerations
	Responsibilities of research students
	 Student support and communication
	Supervision and resources
	Careers opportunities
	Fees
	Complaints and appeals
Research Training Brochure	This policy shows what training and development is available
Ŭ	to research students, how to access it, and how our training
	provision aligns with the Researcher Development
	Framework.
